EDUCATION

Trinity College Dublin

MSc Business Analytics

Dublin, Ireland

09/2025–09/2026

- **Relevant Courses:** Business Data Mining, Data Management & Visualization, ESG Analytics

Zhongnan University of Economics and Law

B.A. (Hons) in Philosophy, Politics & Economics

Wuhan, China

09/2021–06/2025

- **Cumulative GPA:** 3.80/ 4 (TOP 2%)

- **Honors:** 2nd Class University Scholarship 21/22, 3rd Class University Scholarship 22/23

PROFESSIONAL EXPERIENCE

Dewu / Poizon APP

Merchant Operations Intern

Shanghai, China

04/2025–06/2025

- **Price Governance:** Mitigated pricing risk by reducing the high-price ratio for the KAPPA brand to 5% and the overall department to 8%. Engineered a dual-dimensional pricing framework to quantify and monitor market valuation and pricing risk by comparing internal data to external market prices. Expedited risk mitigation by establishing a rapid-response protocol, requiring merchants to adjust prices within 18 hours.
- **Merchant Growth:** Improved new merchant performance and reduced operational risk by increasing first-month pass rate to 75% and quarterly retention to 65%. Built a comprehensive 90-day risk model that evaluated new merchants based on both operational risk (low sell-through rate) and market risk (high-price ratio).
- **Penetration Diagnosis:** Boosted KAPPA brand GMV by 45% QoQ. Authored a quarterly business assessment report using competitive analysis to identify core risks, including low average order value and a lack of best-selling products. Proposed and drove a strategic reallocation of platform resources.
- **Ecosystem Strategy:** Minimized market and brand risk through a targeted promotional strategy, increasing GMV by 12% MoM. Identified the risk of low user penetration among key demographics and designed the "Campus Seeding" plan. The campaign successfully converted potential market risk into a 30% MoM increase in GMV from the college user segment.

H World Group Limited

Strategic Investment Intern

Shanghai, China

02/2025–04/2025

- **Risk Monitoring:** Enhanced financial transparency and strengthened early risk detection by developing real-time dashboards tracking key financial metrics. Identified underperforming units and enforced structured remediation by implementing a percentile-based classification and traffic-light risk alert system.
- **Financial Control:** Achieved a significant financial turnaround, saving an estimated EUR 2.56M annually and making 9 previously loss-making hotels EBITDA positive by spearheading rent-reduction negotiations for high-rent hotels (>30% above market benchmark).
- **Business Strategy:** Designed direct-booking acquisition strategies to reduce dependence on third-party platforms; developed a franchise conversion roadmap for lower-tier city hotels, prioritizing by EBITDA and delivering 15% cost reduction through operational enhancements.

SWS Research

Industry Research Intern

Shanghai, China

06/2024–10/2024

- **Policy Research:** Co-authored the "SME Bank Reform Strategies" report, constructing a four-dimensional evaluation model integrating financials, regional economics, asset-liability structures, and profitability to assess regulatory resilience.
- **Comparative Diagnostics:** Conducted case studies, building a replicable diagnostic tool for assessing SME bank governance and credit risk exposures.
- **Financial Analysis:** Produced 3 independent research reports and contributed to 5 additional thematic studies. Authored 6 financial commentaries analyzing asset quality and profitability under regulatory policy shifts.
- **Data Integrity:** Enhanced accuracy of financial models by processing datasets for listed banks, achieved through systematic data validation and use of Wind.

Minsheng Securities

Investment Operation Intern

Shanghai, China

07/2023–08/2023

- **Risk Metrics:** Audited FOF daily NAV, calculated metrics (weekly/monthly/annual returns, Sharpe ratios) using R, and drafted private fund performance reports.
- **Compliance Review:** Reviewed anti-money laundering and suitability materials for 137 asset management products and ensured regulatory filings for 112 announcements; Issued 112 asset management product's disclosure announcements, produced 172 investment restriction manuals
- **Operational Oversight:** Managed lifecycle operations, including client onboarding with custodians, product registry updates, and data cleaning tasks.
